

Figures

Figure 1: A line graph showing the relationship between the independent variable (X-axis) and the dependent variable (Y-axis). The X-axis is labeled 'Time (hours)' and ranges from 0 to 24. The Y-axis is labeled 'Temperature (°C)' and ranges from 0 to 100. The graph shows a steady increase in temperature over time, starting at 0°C at 0 hours and reaching 100°C at 24 hours. The data points are connected by a straight line, indicating a linear relationship.
